PROGRAM

Noelly McNaughton came to tell us how important "Life Long Learning" is to all of us. He stated that if we stop learning, we might as well die. When you feel like you know what you are doing - it's time to start something new. It has been said that we have 49% more "stuff" but 51% less quality of life.

He recounted a personal story to illustrate how most effective learning happens before we are aged 10. During this time one formulates a pattern for life which we learn from our parents and other significant adults.

STUFF

The Christmas party will be the afternoon of Sunday Dec 9.

Jennifer Moon was the luck recipient of our SDSS Scholarship. Bill Montgomery was pleased to present it to her.

Foundation dinner is Nov 16 at the Hellenic Centre.

The number of items for the auction is down but each will get better exposure.

The Board met and decided that the Liaison to the other Delta Clubs should be a Board member. The well project is now finally all done and plaques will be ordered. It is more difficult to arrange to get the next shipment of books to Mexico.

It is important for all of us to spend some time with Luzi.

Trick-or-Treat responds to U.S. President Bush's appeal

Last Thursday evening, U.S. President George W. Bush appealed in a nationwide address and press conference for each child in the country to send US\$1 to the White House for the relief of Afghan children. This has launched a large national response, and key schools across the country began reporting that their students wanted to respond to President Bush's appeal rather than take part in the Trick-or-Treat for UNICEF campaign.

In order to ensure continued participation in Trick-or-Treat this year, the U.S. Fund for UNICEF, in response to President Bush's appeal, will direct proceeds from the program to helping Afghan children, including polio eradication efforts. This will provide much needed help to Afghan children, and also enable health workers to continue the program to immunize these children against polio. The World Health Organization (WHO) and UNICEF estimate that in the year 2002 alone, Afghanistan needs more than US\$7 million in donor aid for its polio program.

The program to support polio eradication through Trick-or-Treat for UNICEF has been extended an additional year, so that in both 2002 and 2003, all funds raised will go exclusively to polio eradication. The U.S. Fund for UNICEF has informed the press about the changes, and revised their Web site (http://www.unicefusa.org) with information pertaining to the support of Afghan children. For further information, the U.S. Fund for UNICEF can be reached by telephone: 212-922-2479. The updated materials, including local press releases, should help promote Trick-or-Treat and respond to questions from local communities.
